☐ Periodically if not otherwise run ?

Orphaned Item Strategy

Jobs for removed SCM heads (i.e. deleted branches) can be removed immediately or kept based on a desired retention strategy. By default, jobs will be removed as soon as Jenkins determines their associated SCM head no longer exists. As an example, it may be useful to configure a different retention strategy to be able to examine build results of a branch after it has been removed.

☐ Abort builds ?

☒ Discard old items

Days to keep old items

if not empty, old items are only kept up to this number of days
